Press Release: March 6, 2008

Girls Hockey Announces to Coaches and Staff \$5,000 Bell Community True Sport Grant

During a meeting with all Wolverine coaches and team coaching staffs on February 27, the Wilmot Girls Hockey Association Executive announced that the local girls hockey organization was awarded a Bell Community True Sport Grant worth \$5,000.

A significant portion of the Grant is for awards to recognize excellence, participation, sportsmanship, and the development of players. The Association will also be able to recognize exemplary volunteer leadership. The Grant will also provide financial support for players who want a chance to play hockey but are unable to financially afford to pay fees. In this way, the Grant will promote accessibility and inclusion.

At the meeting, the coaching volunteers and the WGHA Executive were able to discuss the challenges and accomplishments of the almost complete first year of girls hockey in Wilmot and, overall, the year was deemed a success with suggestions for improvement next year.
